About Barbershop Harmony

Barbershop harmony is defined as four voices singing a cappella (without instruments), with the tenor part above the lead (melody). The bass is always the lowest part, while the baritone part wanders above and

below the lead part, to fill in the chord. It was very popular in the late 1800s, as men gathered in neighborhood barbershops and harmonized by ear. The Barbershop Harmony Society, formerly known as SPEBSQSA (Society for the Preservation and Encouragement of Barber Shop Singing in America), was formed in 1938 to preserve this unique American musical art form.
